# COURSE SELECTION

- The following are a few basic guidelines to assist in this area:
- 1) Choose subjects at a level which will offer appropriate challenges. Students who have had success in academic programs/courses (70% or higher) to this point and good study and work habits will most likely find continued success in academic courses.
- 2) Ask questions of your current teachers and school counselors.
- 3) Select courses based on future plans.
- 4) Attend meetings about registration.

# Registration Handbook

▪

- **Honour Criteria - To be recognized as an PSB honour graduate, a student must:**
- Successfully complete the Provincial Graduation Requirements and;
- Achieve an aggregate of 480 (80%) in six, (6) Grade 12 courses (600 and 800 level), one of which is English; and
- No mark lower than 70% in the six (6) Grade 12 courses included in the aggregate calculation.

# Registration Handbooks

## Important Notes

- It is difficult to register successfully for Automotive, Welding and Carpentry in the same year due to schedule conflicts.
- If registering for automotive, welding, and/or carpentry, you must register for the 701A versions before any other.
- Automotive 801C has strong math component – meant for students going into a engineering/electrical field.
- Carpentry 801A & 801C – you must register for both of these at the same time. Offered all morning in 2<sup>nd</sup> semester.

# Registration Handbook

## Important Notes

- If you enrol in a course you already have the credit for due to **upgrading**, you will only be awarded **one** credit, providing space availability.
- Students who attain credits at the same grade and subject level but different curriculum levels will count towards two credits. One towards the compulsory credits and one towards the elective credits. Eg. SCI421A and SCI 431A. (In this case, the SCI 421 would be counted as the Compulsory credit and the SCI 431 would be considered an **elective** credit.)

# Registration Handbook

## Important Notes

- DRA621A, ART621A, CMP621A, and any of the shop classes that were listed with stars are run as independent courses. You need to understand this when registering, and you need to be committed to the work involved in a course that has little teacher involvement as they are all offered at the same time as other courses.

# Study Periods

- In order to have a study period in the following grades, students must have already earned a certain number of credits
  - Study period for students registering for Grade 11
    - must have at least **8 credits**
  - Study period for students registering for Grade 12
    - must have at least **15 credits**
  - All study periods must be approved through the Administration
